

Introduction

Curriculum mapping grid

The following grid shows what children should be taught during Year 3, as laid out in the 2014 National Curriculum Programme of Study for Mathematics and how these are covered within the *Rising Stars Mathematics* Year 3 units.

Domain	Sub-domain	Statement	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6	Unit 7	Unit 8	Unit 9	Unit 10	Unit 11	Unit 12	Unit 13	Unit 14
NUMBER	Number and place value	count from zero in multiples of four, eight, 50 and 100; find ten or 100 more or less than a given number	a				a									
		recognise the place value of each digit in a 3-digit number (hundreds, tens, ones)	b, c				b									
		compare and order numbers up to 1000	c				b									
		identify, represent and estimate numbers using different representations	d				b		a			b		a		
		read and write numbers up to 1000 in numerals and in words	b				b					a				
		solve number problems and practical problems involving these ideas					c									
	Addition and subtraction	add and subtract numbers mentally, including:														
		a 3-digit number and ones		a										a, b		
		a 3-digit number and tens												a, b		
		a 3-digit number and hundreds												a, b		
		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction		a, b				a, b						a, b		
		estimate the answer to a calculation and use inverse operations to check answers		b				a, b						a, b		
	Multiplication and division	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction		a				a, b						a, b		
		recall and use multiplication and division facts for the three, four and eight multiplication tables			a, b						a					
		write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers multiplied by one-digit numbers, using mental and progressing to formal written methods			a, b, c						a, b				a, b	
	Fractions	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects			c						c					
		count up and down in tenths; recognise that tenths arise from dividing an object into ten equal parts and in dividing single-digit numbers or quantities by ten					c		a			b		a		
		recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators												b		
		recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators							b					b		
		recognise and show, using diagrams, equivalent fractions with small denominators												c		
		add and subtract fractions with the same denominator within one whole [e.g. $\frac{2}{7} + \frac{1}{7} = \frac{3}{7}$]								b				c		
		compare and order unit fractions, and fractions with the same denominators								b				b		
	solve problems that involve all of the above								b				a, b, c			

Domain	Sub-domain	Statement	Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6	Unit 7	Unit 8	Unit 9	Unit 10	Unit 11	Unit 12	Unit 13	Unit 14	
MEASUREMENT	Measurement	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)					b							a, c		b	
		measure the perimeter of simple 2-D shapes															b
		add and subtract amounts of money to give change, using both £ and p in practical contexts													b		
		tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks											a				
		estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight											a				
		know the number of seconds in a minute and the number of days in each month, year and leap year												b			
		compare durations of events [e.g. to calculate the time taken by particular events or tasks]												b			
GEOMETRY	Properties of shapes	draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them				a					a, b					a	
		recognise angles as a property of shape or a description of a turn				b					b						
		identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle				b						b					
		identify horizontal and vertical lines and pairs of perpendicular and parallel lines										a					
STATISTICS	Statistics	interpret and present data using bar charts, pictograms and tables					a				a	b				a, b	
		solve one-step and two-step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables				a
